

FOODTECH / DESKTOP/MOBILE APPS

# Global Foodservice Company

## ABOUT PROJECT

Dynamically developing food service company. For 17 years it has been a reliable supplier of products and solutions in the HoReCa market

## CHALLENGES

- Create and supervise the entire design on the project
- Design the UI architecture, interface, and interaction flow of new web and on-device software applications;
- Make a user friendly design
- Deliver an exceptional trading experience with superior execution and low consistent costs.

## ACHIEVEMENTS

In a short time, the project managed to attract many customers and is currently competing well in the currency exchange market
